- In the popup:
  - Click **Download Template** → Fill in your bot details.
  - Example entry:
  - Name: John IG Bot
  - Username: john_doe01
  - Email: johndoe@gmail.com
  - Phone: +1234567890
  - Device: USA_Emulator_01
  - Server: VPS_NewYork_01
  - Proxy: proxy1.webshare.io
  - Copy the **Google Sheet URL** and paste it into the field.
- Click **Submit**.

Best Practice: Always test bots in small batches before uploading 100+ at once.
Question: How can I add a bot?
Answer: To add bots, you can follow the steps given below:
- On the **Dashboard** sidebar, click **Resource Creation** tab.
- From the toggle list, click **Bots**.
- Click **Add Bots**.
- In the popup:
  - Click **Download Template** → Fill in your bot details.
  - Example entry:
  - Name: John IG Bot
  - Username: john_doe01
  - Email: johndoe@gmail.com
  - Phone: +1234567890
  - Device: USA_Emulator_01
  - Server: VPS_NewYork_01
  - Proxy: proxy1.webshare.io
  - Copy the **Google Sheet URL** and paste it into the field.
- Click **Submit**.

Best Practice: Always test bots in small batches before uploading 100+ at once.
Question: I want to add a bot.
Answer: To add a bot, you can follow the steps given below:
- On the **Dashboard** sidebar, click **Resource Creation** tab.
- From the toggle list, click **Bots**.
- Click **Add Bots**.
- In the popup:
  - Click **Download Template** → Fill in your bot details.

- ○ Example entry:
- ○ Name: John IG Bot
- ○ Username: john_doe01
- ○ Email: johndoe@gmail.com
- ○ Phone: +1234567890
- ○ Device: USA_Emulator_01
- ○ Server: VPS_NewYork_01
- ○ Proxy: proxy1.webshare.io
- ○ Copy the **Google Sheet URL** and paste it into the field.
- ● Click **Submit**.

Best Practice: Always test bots in small batches before uploading 100+ at once.

Question: I want to create a bot.

Answer: To create a bot, you can follow the steps given below:
- ● On the **Dashboard** sidebar, click **Resource Creation** tab.
- ● From the toggle list, click **Bots**.
- ● Click **Add Bots**.
- ● In the popup:
  - ○ Click **Download Template** → Fill in your bot details.
  - ○ Example entry:
  - ○ Name: John IG Bot
  - ○ Username: john_doe01
  - ○ Email: johndoe@gmail.com
  - ○ Phone: +1234567890
  - ○ Device: USA_Emulator_01
  - ○ Server: VPS_NewYork_01
  - ○ Proxy: proxy1.webshare.io
  - ○ Copy the **Google Sheet URL** and paste it into the field.
- ● Click **Submit**.

Best Practice: Always test bots in small batches before uploading 100+ at once.

Question: How to create bots?

Answer: To create bots, you can follow the steps given below:
- ● On the **Dashboard** sidebar, click **Resource Creation** tab.
- ● From the toggle list, click **Bots**.
- ● Click **Add Bots**.
- ● In the popup:
  - ○ Click **Download Template** → Fill in your bot details.
  - ○ Example entry:
  - ○ Name: John IG Bot
  - ○ Username: john_doe01
  - ○ Email: johndoe@gmail.com
  - ○ Phone: +1234567890
  - ○ Device: USA_Emulator_01
  - ○ Server: VPS_NewYork_01

- - ○ Proxy: proxy1.webshare.io
  - ○ Copy the **Google Sheet URL** and paste it into the field.
  - ● Click **Submit**.

Best Practice: Always test bots in small batches before uploading 100+ at once.
Question: How can I create bots?
Answer: To create bots, you can follow the steps given below:
- ● On the **Dashboard** sidebar, click **Resource Creation** tab.
- ● From the toggle list, click **Bots**.
- ● Click **Add Bots**.
- ● In the popup:
  - ○ Click **Download Template** → Fill in your bot details.
  - ○ Example entry:
  - ○ Name: John IG Bot
  - ○ Username: john_doe01
  - ○ Email: johndoe@gmail.com
  - ○ Phone: [+1234567890](+1234567890)
  - ○ Device: USA_Emulator_01
  - ○ Server: VPS_NewYork_01
  - ○ Proxy: proxy1.webshare.io
  - ○ Copy the **Google Sheet URL** and paste it into the field.
- ● Click **Submit**.

Best Practice: Always test bots in small batches before uploading 100+ at once.
Question: How can I delete a bot?
Answer: To delete a bot, you can use the following steps:
- ● On the **Dashboard** sidebar, click **Resource Creation** tab.
- ● From the toggle list, click **Bots**.
- ● Select bots using the checkboxes.
